

EMMANUEL
ANGLICAN
COLLEGE

Learning ~ Living ~ Leading

OUR VALUES

Christ-likeness Integrity
Excellence Commitment
Compassion

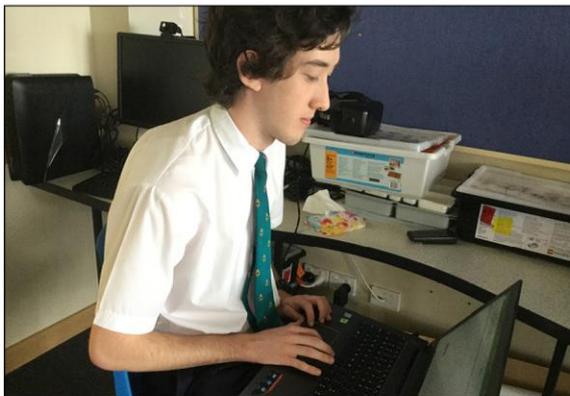

OUR MISSION

As a co-educational College founded in the Anglican tradition, we will:

- Celebrate our Christian faith
- Promote life-long learning
- Encourage excellence
- Engage positively with communities and the environment

Bring Your Own Device (BYOD) Program

Year 7 to Year 12

What is BYOD?

All secondary students at Emmanuel Anglican College are required to bring their own technology to school each day.

With the growth of readily accessible technology in the home, students choosing to use different platforms such as Mac and PC and the broad range of user needs, from general users to highly specialised users with specific learning interests, it was decided that it is no longer effective to provide all students with the same laptop and so the College moved to a Bring Your Own Device (BYOD) program for all secondary students.

What type of device can we bring?

The tables below set out the minimum specifications required in a device across a range of user requirements and allows families to make the decision about what particular device will best support their child's learning. We recommend a Windows device but recognise that an Apple device is required for some specialist subjects.

Windows Users:

	Standard User	Specialist User	Multimedia Students
PROCESSOR	Dual-Core Intel Core i5	Dual-Core Intel Core i5	Dual-Core Intel Core i7
MEMORY	4GB DDR SDRAM	8GB DDR SDRAM	16GB DDR SDRAM
HARD DRIVE	320GB SATA3 7200rpm HDD - or - 128GB SSD	500GB SATA3 7200rpm HDD - or - 256GB SSD	500GB SATA3 7200rpm HDD - or - 256GB SSD
GRAPHICS	Integrated Graphics	Integrated Graphics	Minimum 2GB. More is recommended
BATTERY	6 hours	6 hours	6 hours
WIRELESS CARD	Dual band 802.11n/ac	Dual band 802.11n/ac	Dual band 802.11n/ac
SCREEN SIZE	Year 7-9: 11" Year 10-12: 13"	Year 7-9: 11" Year 10-12: 13"	Minimum 13" Recommended 15"
OPERATING SYSTEM	Minimum: Windows 8 Recommended: Windows 10	Minimum: Windows 8 Recommended: Windows 10	Minimum: Windows 8 Recommended: Windows 10
ACCESSORIES	Protective Case/Cover and Headphones.	Protective Case/Cover and Headphones.	Protective Case/Cover and Headphones.

Apple Users:

	Standard User	Specialist User	Multimedia Students
PROCESSOR	Dual-Core Intel Core i5	Dual-Core Intel Core i5	Dual-Core Intel Core i7
MEMORY	4GB DDR SDRAM	8GB DDR SDRAM	16GB DDR SDRAM
HARD DRIVE	128GB SSD	256GB SSD	256GB SSD
GRAPHICS	Integrated Graphics	Integrated Graphics	Minimum 2GB. More is recommended
BATTERY	6 hours	6 hours	6 hours
WIRELESS CARD	Dual band 802.11n/ac	Dual band 802.11n/ac	Dual band 802.11n/ac
SCREEN SIZE	Year 7-9: 11" Year 10-12: 13"	Year 7-9: 11" Year 10-12: 13"	Minimum 13" Recommended 15"
OPERATING SYSTEM	Minimum: 10.10.5 Recommended: 10.12.1	Minimum: 10.10.5 Recommended: 10.12.1	Minimum: 10.10.5 Recommended: 10.12.1
ACCESSORIES	Protective Case/Cover and Headphones.	Protective Case/Cover and Headphones.	Protective Case/Cover and Headphones.

Where to from here?

A range of devices in a range of price categories meet the minimum required device specifications. Families may purchase a suitable device from any supplier they choose. The School Locker, our uniform and student resources supplier, has created a web portal which can be accessed via their website. Devices which meet the minimum specifications for each user group can be viewed on the portal. Don't forget to log in so that you receive special education pricing.

<http://theschoollocker.com.au/schools/emmanuel-anglican-college/technology>

The purchase of a device is a major decision and a significant expense but remember a good quality device should last three years. The School Locker are able to offer finance and leasing options. Please speak to one of their staff in store for additional information.

If you are concerned the device is going to be broken or lost, you may wish to consider specific accidental damage insurance for the device. You may be able to specifically list the device on your home contents insurance or you can purchase an Accidental Damage Protection when you purchase your device.

What is expected of you?

Students are expected to:

- bring their device to school each day;
- charge the device at home each night;
- look after the physical condition of the device;
- maintain a current anti-virus software licence; and
- back-up all data.

Please also note that current anti-virus software will have to be installed on the device before it will connect to the College network. The College will provide reasonable support to ensure students are connected to the network. However, the College does not manage, support, own or warrant the device - it's your device.

Students are expected to adhere to the Student Electronic Communications Code of Conduct and User Agreement that they have signed upon enrolment. We encourage parents to discuss the expected code of conduct with their child.

The parents' role is to supervise their child on the device at home to prevent students viewing or downloading content that is age restricted and may not be suitable for them. The College does not recommend that there are any games loaded onto devices as it is an educational tool. Applications such as iMessage and Facetime are not allowed during College hours. This can be restricted on your child's device, which we strongly recommend as it can cause social issues. Apps like Instagram, Snap Chat and other social media apps are not recommended. We encourage parents to educate their child about the dangers of social media and the Internet. The College will provide educational opportunities for parents to support safe and proper use of technology.

What is provided by the College?

We will provide:

- connection to the College wireless network;
- internet access for use while at the College;
- training and support for students; and
- Microsoft Office Professional Suite.

Once students have been allocated a network username and password they can connect their own device to the network by clicking on "Connect Your Device" on the "Online Services" Menu on the College website at www.eac.nsw.edu.au or by clicking on the following link.

<https://onboard.eac.nsw.edu.au/enroll/EmmanuelAnglicanCollege/Production/process>

If you have any problems, the College IT staff will be available during the first few days of term to answer questions and provide assistance connecting students to the network.
