IT Levy:

As technology becomes increasingly integral to modern education, the cost of maintaining and advancing ICT infrastructure has grown significantly. Providing students with relevant and effective learning opportunities requires continual investment in digital tools, platforms, and support systems. In recognition of this, and to ensure the College can continue to deliver a high-quality digital learning environment, an annual IT Levy will be introduced from 2026.

This levy covers the provision of a shared digital device for students in Kindergarten to Year 4 and a personal digital device for students in Year 5 to Year 12 together with most software licences. In addition, this levy will support the ongoing development, maintenance, and enhancement of the College's ICT environment, including classroom technologies such as interactive whiteboards, campus-wide Wi-Fi, secure network access, learning management systems, cloud-based platforms, printing and scanning facilities, educational software, and dedicated technical support.

The IT levy is charged with Instalment 2.
